Additional Information:

- 1.Personal Projects: Showcase any personal projects you have worked on outside of your professional experience. This demonstrates your passion for coding and your ability to take initiative. Provide links to live demos or GitHub repositories.
- 2.Blogging or Technical Writing: If you have a blog or have published technical articles, mention it. This shows your ability to communicate complex ideas effectively and share knowledge within the web development community.
- 3.Online Presence: Include links to your professional profiles on platforms like LinkedIn, Stack Overflow, or any relevant online communities. This allows potential employers to learn more about your skills, experience, and contributions.
- 4.Languages: If you are proficient in languages other than English, mention them. Fluency in multiple languages can be an asset when working on international projects or collaborating with diverse teams
